Next manoeuvre:  
Direction and distance  
before the next direction

Tools bar:  
Turn off the sound, orientate  
the map, start the 3D  
mode,...

Battery and Satellite level:  
Check the status at a  
glance.

Menu button:  
Access quickly to the  
Menu

Your Current Position  
signaled by the red cursor  
on the map. The colour  
changes if you are in bike,  
car or pedestrian mode

Data Bar:  
Find all the important  
information like your altitude,  
your position, ...  
More than 50 different data!

France, IGN, 1:25 000

## A large choice of maps

Thanks to the TwoNav software included, you will have the opportunity to play with a lot of different formats: topographic maps, satellite pictures, raster maps, urban maps, scanned maps, \*.map, \*.jpg, \*.gif, \*.tif, etc.. Just convert them though CompeGPS Land basic version. We also offer maps from all around the World with the possibility to download them by tiles, departments or zones to better fit your needs: Spain, France, Germany, Switzerland, Italy, Finland Norway, Netherlands, Austria, Morocco, Sweden, Australia, Tunisia, free USA maps and more.

## The screen

A big 3" transfective  
screen with an impressive  
resolution of 240x400 to play  
with your maps in high  
definition!  
Switch on the 3D mode to add  
even more realism.
