

In case of contradiction, the [Spanish version](#) takes precedence

General Information

Service Description

The use of TwoNav Cloud, offered by CompeGPS TEAM, SL, allows users to save and share routes through GPS tracks. This service is available at go.twonav.com and syncs with TwoNav devices, including GPS devices, Land software, and mobile apps. This service is available via go.twonav.com

TwoNav Cloud Space

The user can synchronize any of their TwoNav devices with TwoNav Cloud (GPS devices, Land software, TwoNav App, or TwoNav Link App). By doing so, they will have cloud space consisting of:

- Their activities: where all the activities performed by the user that they have chosen to synchronize with TwoNav Cloud will be stored.
- Their routes: where all the routes the user wishes to complete and has chosen to synchronize with TwoNav Cloud will be stored. These routes can either be activities carried out by the user, routes created from scratch by them, or obtained from a third party to whom the user has granted permission.
- Public Routes: these are all the activities or routes a user has chosen to share publicly with all other users.

Thus, the GO space publicly offers all Public Routes shared by its users for the community's use.

The user can also share their activities or routes privately via a private link, either to their contacts or directly on their social networks.

The memory size offered to each user in TwoNav Cloud will be at the discretion of CompeGPS TEAM, SL, which may increase or reduce it with prior notice to each user.

SeeMe

Using the SeeMe service, you can broadcast your real-time position and activity data through the 2G mobile network to previously registered contacts. These contacts receive an email with each activity that the user selects to share for broadcasting. The service also includes the ability to assign an emergency contact, who, when required by the user, will not only receive an email notification but also an SMS notification. CompeGPS TEAM SL is not responsible for the 2G network coverage, which is provided by a third party. Therefore, the SeeMe service is not guaranteed by CompeGPS TEAM SL, nor is the company liable for any damages or losses the user may incur due to service outages.

Intellectual Property

All content provided on TwoNav Cloud is the property of CompeGPS TEAM SL and is protected by intellectual property laws. Users may not reproduce, distribute, or create derivative works without prior authorization.

Data Usage

Data Collection

TwoNav Cloud and TwoNav GO collect data such as GPS location, activity duration, user profile, and other data related to the activity path.

Similarly, the SeeMe service collects contact data assigned by the user, such as name, email address, and phone number.

Data Usage

The collected data is used to improve the user experience, provide live tracking features, personalize services, and conduct statistical analyses.

Data Sharing:

No information is shared with third parties unless the user voluntarily does so (private link or Public Routes). Data is only used internally by CompeGPS TEAM SL.

Type of Information Collected

Information such as name, email, GPS location data, activity data (duration, distance, etc.), and technical device data (IP, device type) is collected.

Collection Methods

Information is collected through registration forms, service usage, cookies, and other tracking technologies.

User Rights

Users have the right to:

- **Access:** Confirm whether we process their data and obtain a copy of it.
- **Rectification:** Correct inaccurate or incomplete data.
- **Erasure:** Request the deletion of their data when it is no longer necessary.
- **Objection:** Object to the processing, especially for marketing purposes.
- **Data Portability:** Receive their data in a structured format to transmit it to another controller.
- **Restriction of Processing:** Temporarily restrict processing while the legitimacy or accuracy of the data is reviewed.

Rights can be exercised by contacting

Data Retention

Personal data will be retained for as long as necessary to fulfill the purposes of this policy or until the user requests its deletion. Afterward, the data will be deleted or anonymized, except in cases of legal obligation.

User Content

Content Publication

Users may upload and share routes, images, descriptions, and other content on the Public Routes platform (hereinafter collectively referred to as "User Content"). By doing so, they guarantee that they own the

necessary rights over the content and that it does not infringe on third-party rights.

Assignment of Rights

By sharing content on our services, users grant CompeGPS TEAM SL a worldwide, non-exclusive, royalty-free license to use, reproduce, distribute, prepare derivative works, display, and perform the content in connection with providing the services. This rights assignment can be canceled by the user at any time by requesting CompeGPS TEAM SL to do so.

Rules for Publishing User Content

- User Content must be relevant, respect third-party rights at all times, not violate laws, morality, or public order, and comply with these Terms.
- Users should note that through the Services, they can publish User Content in a public forum available to any third party, and they are responsible for what they store and publish through the Website and Applications.
- The User must own intellectual, industrial, or other property rights to the User Content they share, either as the original author or owner or by being authorized to do so by the corresponding author or rights holder.
- If the User Content includes the image, voice, or name of any person, or any confidential or private information about that person, that person must have authorized the publication of such Content.
- User Content must not include advertising or promotional material or be used to disseminate advertising or for profit, except in cases where CompeGPS TEAM SL specifically authorizes such use.
- User Content must not include viruses, worms, or any type of destructive code.
- User Content must comply with the conditions and technical requirements established by CompeGPS TEAM SL.

Right to Cancel or Modify Content

CompeGPS TEAM SL reserves the right to cancel, delete, or modify any content shared by the user if errors, rights violations, or content that could harm third parties are detected. Additionally, CompeGPS TEAM SL may block users who violate these rules.

User Responsibility

The user is solely responsible for the content they upload to the platform. CompeGPS TEAM SL is not responsible for the accuracy, completeness, or quality of the content provided by users. Users must ensure that their content complies with the terms and does not harm third parties.

Liability and Limitations

Responsible Use

Users must use the platform responsibly and respectfully, avoiding the upload of illegal or inappropriate content and refraining from using the service for dangerous activities.

Limitation of Liability

CompeGPS TEAM SL is not responsible for:

- Interruptions, viruses, malfunctions, interference, omissions, or disconnections from the electronic system, communication system, or their equipment for reasons beyond CompeGPS TEAM SL's control.
- Delays or blockages in the use of the Website, Applications, and Services due to deficiencies or overloads on the Internet, lines, or electrical or communication systems.
- Third-party actions.
- The inability to access the Website, Applications, or Services due to maintenance or updates.
- The platform is offered "as is" without any warranties. CompeGPS TEAM SL is not responsible for location data errors, data losses, technical problems, or any damages that may arise from using the service.
- 2G service connectivity issues, which are provided by a third party.

Modifications to the Terms

Right to Modify

CompeGPS TEAM SL reserves the right to modify these terms at any time. Changes will be notified to users via the website or email.

Information Security

Security Measures

We use encryption technologies, firewalls, and other security measures to protect personal data from unauthorized access, alterations, disclosures, or destruction.

Changes to the Privacy Policy

Notification of Changes:

Any changes to this policy will be notified to users via the website or email.

Acceptance of Changes

Continued use of the service after notification of changes implies acceptance of the new privacy policy.

Note: TwoNav Public Routes (BETA) is a beta service and may undergo changes without prior notice, always respecting user rights and the conditions of use regarding the content they may share. These privacy conditions may be expanded or modified in the future.
